*Please note that our performances will include some flashing lights and occasional loud or dramatic music.*

World Festival of Magic has been organized as a special **FREE** outing to bring some joy and laughter to the children, teenagers and families who have been having a hard time due to illness, disabilities, or other health related issues as well as children in protective custody. This also includes those who may be experiencing emotional and/or financial difficulties.

We believe, your organization/school assists or comes into contact with children/teenagers or adults dealing with the above issues and you may like to offer them the opportunity to view this show **FREE** of charge due to the kindness of the Gold Coast business community and the Lions Club of Palm Beach Currumbin INC.
