Apprenticeship Opportunity

Are you looking for a different career path? Are you over 16? Become a qualified Flooring Installer through an apprenticeship!

You could work in many different types of flooring such as vinyl & resilient flooring, commercial installation, residential, timber, carpet, etc. As a flooring installer, most of your work will be conducted indoors. You can visit our website here: [Newfurn Training Academy](#)

An apprenticeship in flooring technology leads to many opportunities within our industry. Once qualified, you can be self-employed with Choices Flooring and Style Interiors, or work as an employee for us, or our alliance industry partners. Whatever pathway you take, you can be rest assured that your earning potential is set by you and the direction you take.

- Hands-on training: Apprenticeships provide practical, on-the-job training that allows individuals to gain real-world experience and develop valuable skills in a specific trade or profession.
- Earn while you learn: Apprenticeships offer a salary allowing individuals to earn an income while receiving training.
