YEAR 11 AND 12 ACADEMIC BOOTCAMPS: ENROL NOW!

Academic Bootcamps are high-quality courses designed to assist students to improve their confidence and understanding in senior subject areas, achieve their full academic potential, reduce anxiety around assessment and prepare for future tertiary study.

SCHOOL HOLIDAYS - GET AHEAD

Our Academic Bootcamps give students a distinct advantage in progressing through their senior studies. They will help to revise and consolidate knowledge in the subject, seek answers for specific queries and assist students to gain confidence in preparing for their exams. They will also provide invaluable tips on study skills and techniques specific to the subject, giving attendees an extra edge in upcoming exams and assessments.

BIOLOGY - CHEMISTRY - PHYSICS - MATHS METHODS

Subjects offered will be biology, chemistry, physics and maths methods. All will be run in a half-day format, allowing students to register for up to two subjects. Subject material has been designed and will be delivered by committed and enthusiastic lead teachers, who are specialists in the subject area and currently teaching these topics in schools.

NOW AVAILABLE ONLINE

These courses will be delivered to students in 2020 regardless of the COVID-19 situation. Online delivery is now available as an option for all classes. If we are unable to deliver the Academic Bootcamps in face-to-face mode, on Gold Coast campus, students can choose to transfer to the online classes or request a full refund.

The on-campus mode will be held on Griffith's dynamic Gold Coast campus, where students can have a taste of university life. The bootcamps will be held in University lecture theaters and tutorial rooms and will be assisted by current university students. The online mode will cover the same format as the on campus delivery with access to both lecture and tutorial styles of delivery. Students can choose which mode they prefer upon registration and will be updated during the year as to which options are available.

YEAR 11 DATES: 29 June – 3 July ONLINE ONLY YEAR 12 DATES: 28 September – 2 October

TIMETABLE – MONDAY TO FRIDAY

Morning sessions : 9 am – 12.30 pm
