

## MSL20118 Certificate II in Sampling and Measurement Leichhardt Education and Training

Course conducted at PBC SHS  
January 18 to 21 2022 (Tuesday to Friday last week of holidays)  
8:00am to 3:30pm in J block.

Information session and gear measure-up: Week 7 Term 4 November 16 during morning tea 11:40am in Y Block

There is no charge for eligible students under VETiS arrangements. All materials, PPE and other resources will be provided.

### **4 QCE points attained in 4 days!!!**

The Certificate II in Sampling and Measurement course in January is only offered to students in the Academic Excellence program, students that have studied Advanced Science in Year 10 or Year 11 students currently undertaking a general science subject. This course is a useful foundation for Senior Science subjects.

This course offers entry level technical training in skills applied to scientific sampling and measurement in a field situation. It has been developed with the support of scientists and large mining companies to suit the needs of the mining and infrastructure sector.

### **QUALIFICATION AND COMPETENCIES**

This course covers the qualification MSL20118- Certificate II in Sampling and Measurement:

- MSMENV272: Participate in environmentally sustainable work practices
- MSL912001: Work within a laboratory/field workplace (induction)
- MSL922001: Record and present data
- MSL943004: Participate in laboratory/field workplace safety
- MSL952001: Collect routine site samples
- MSL952002: Handle and transport samples or equipment
- MSL972001: Conduct routine site measurements
- MSL933008: Perform calibration checks on equipment and assist with its maintenance

Register with your Science teacher or in Y block
