

GOLD COAST FUTURE OF WORK EVENING

What does your dream job look like?

With a rise in freelancing, remote working, and purpose driven projects, young people today are entering a workforce that looks dramatically different to that experienced by other generations that have come before.

Whether you are embarking on your senior years of schooling, finishing year 12 or already starting your career pathway - this is for you!

To help shed light on the exciting opportunities available to Gen Z in the workforce, we are hosting the Gold Coast Future of Work Evening. With a mix of networking and an expert panel discussion, we'll be unpacking what the future of work looks like for young people today, and how young professionals in the early stages of their careers can capitalise on the opportunities available to them.
