If you are a high school girl looking to build your career on a trade such as carpentry, building, electrical or even automotive and mechanical, then NAWIC would love you to join them for an exciting speed careering event.

- Meet tradeswomen who are training, working and running their own businesses in the construction, mining and automotive industries
- Network with women in various stages of their careers in a broad range of trades
- Hear first hand the benefits and rewards of pursuing a trade career
- Discover how to commence your own trade career and
- Of course, learn the tricks of the trade

DID YOU KNOW?

- Women in trades report a high level of job and personal satisfaction
- By completing a trade apprenticeship, you will receive a nationally recognised qualification as well as a broad range of skills and opportunities that you can carry into any career
- Not only will you earn while you learn, a trade career also allows you to increase your own economic stability by earning double of many traditional female roles
- By learning a trade, you will acquire skills you can take anywhere around the world, allowing you to travel and broaden your horizons
