Hosting international students in your home can be hugely rewarding. We offer you the opportunity to play a part in sharing your life, home, and to provide memories and cultural experiences to an international student. To form lifelong friendships.

Increasing numbers of international students are choosing to study at Palm Beach Currumbin SHS and we are looking for local families to host these students.

There are short term study tours (under two weeks) as well as long term (6mths-2years) students to accommodate.

Host families receive remuneration for hosting students. Long term hosts will receive \$328 a week.

Contact our International Coordinator Corinne Van Put for more information and to answer any questions.
