### About The Women's College

The Women's College is a residential college within the University of Queensland. The College provides accommodation and community living for students wishing to study at UQ (and a smaller number at QUT) who hail from regional and rural Queensland, as well as other parts of Australia. Residing at the College while attending university provides a full 360 degree university experience. We have a strong tradition of providing excellent pastoral care and academic guidance to young women commencing their tertiary education. The College also provides opportunities for the continuation of co-curricular activities in all areas – sporting, cultural, and community service – in a warm, friendly, and social environment. Fostering educated women leaders is a crucial part of the College's 101 year history, and remains a constant focus of the modern Women's College experience.

At Women's, there are no stereotypes about what women should do, but there are unlimited expectations about what women can do.

Please note that applications to reside at the College in 2016 are due by 30<sup>th</sup> September 2015.
